Clinical Practice

After finishing my Residency in Diagnostic Radiology, I worked as a Scientific Assistant for 20 months in the Unit of Interventional Radiology, University Hospital of Heraklion (Prof. Gourtsoyiannis) between 1.3.1997-30.10.1998

In April 1998, I was elected as a Lecturer of Vascular and Interventional Radiology and since then I was working in the Medical School of Crete until 2019, when I left as Associate Professor.

Since 2019, I am appointed as Professor of Radiology in the Aristotle University of Thessaloniki and work as Head of the Interventional Radiology Unit of the AHEPA University Hospital.

My main scientific interest is Interventional Radiology of the Hepato-Bilio-Pancreatic system, percutaneous biliary endoscopy and lithotripsy, TIPS procedures, intraarterial Embolizations and Chemo-Embolizations, Radio-frequency/Microwave Ablation, and various Non-vascular Abdominal and Musculoskeletal Interventions.

Scientific Activities
