I am a Professor of Cardiology and an Interventional Cardiologist at the 1st Department of Cardiology of Aristotle University of Thessaloniki. I have graduated Aristotle University Medical School at 1993, with grade Excellent (top of my class). I was trained for the Specialization in Cardiology, in the Clinic I am today. During my training I worked for a year as a fellow in Cardiology in the Cardiology Department of Freeman Hospital in Newcastle upon Tyne in Great Britain, where I was trained in coronary angiography and angioplasty, in echocardiography and implantation of pacemakers. My training was complete in April 2001. After that, I was trained at Royal Jubilee Hospital, Victoria Heart Institute Foundation, Victoria, in a salaried post, as special fellow in Interventional Cardiology, during which I conducted a large number of angiographies, left and right catheterizations and angioplasties as first and only operator, intracoronary ultrasounds, for which I received special training. Since 2002 and onwards I'm working as a Interventional cardiologist at the 1st Department of Cardiology of Aristotle University of Thessaloniki performing both Percutaneous Coronary and Structural heart disease Interventions. Apart from this I have also conducted research in the field of Interventional Cardiology (radial access PCI, Intracoronary Ultrasound etc.). Furthermore, I attended and actively participated in the 6 - month introductory 5th Educational Program for Instructors during the first semester of 2005 – 2006, and I was trained in transcatheter aortic valve implantation at Institute Cardiovascular Paris Sud Hospital in Paris.
